

# URBAN NATURE PLANS +

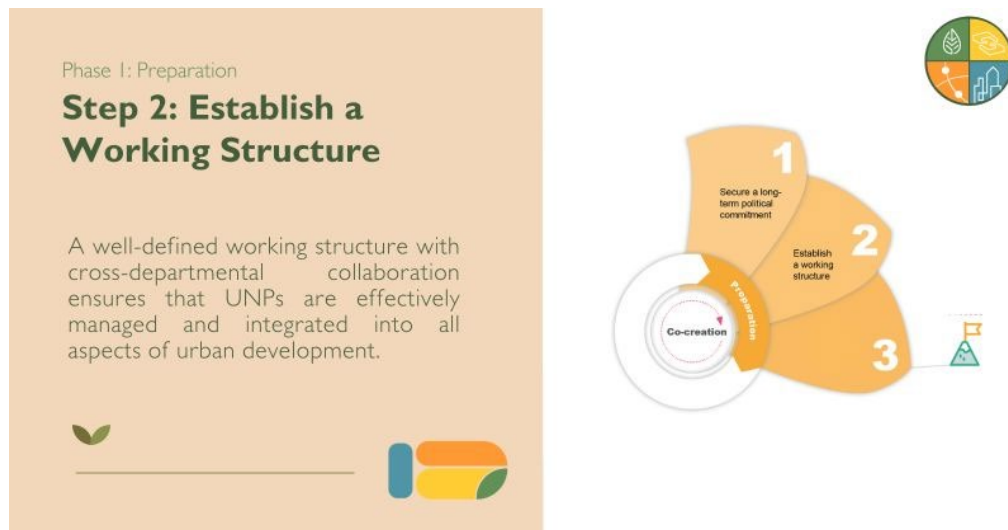

Short brief: step 2 for  
urban nature plans

## Urban Nature Plans – step 2

*Nature belongs in our cities and urban nature plans are a key! This short brief provides an introduction to step 2 for urban nature plans.*

### Exploring the process - Step 2: Working structure

A successful UNP needs a clear, organised approach. Establishing a strong working structure - such as a task force or steering committee - is key to moving the plan forward. With dedicated project coordinators and interdepartmental teams, local governments can ensure effective implementation and coordination.

Key actions:

- ✓ Establish a dedicated urban nature team.
- ✓ Define roles, responsibilities and authorities.
- ✓ Integrate nature-related objectives into all urban planning decisions.

Guidance	<a href="#">A Practical Guide to using Co-production for Nature-based Solutions</a> Nature-based solutions ask for a new form of governance, which builds on knowledge from different relevant disciplines and fits the specific context of a city or area. This new form of governance needs to establish lasting partnerships between urban actors and the local government to better embed nature in urban life. This guidebook offers a practical approach and toolbox for designing and implementing co-production processes.
Tool	<a href="#">Nature-based Solutions Selection Tool</a> The Urban GreenUP selection tool for nature-based solutions (NBS) has been designed to help local governments choose from the many NBS options. It is a decision support tool – it's designed to give suggestions that may help improve how you choose the “right” NBS for your city or context.
