

UrbanByNature Latin America Hub: Webinar #2

## NBS prioritization: Setting goals with local residents and stakeholders

UrbanByNature Latin America is initiated and supported by the Horizon 2020 Project CLEVER Cities.

**Date:** Thursday, 11 August 2022  
**Time:** 9:00 - 10:00 ECT / 16:00 - 17:00 CEST  
**Platform:** Zoom  
**Language:** English, Spanish and Portuguese

[Click here to register!](#)

Supported by the [CLEVER Cities project](#), the second UrbanByNature Latin America webinar will focus on STEP 3 / PRIORITIZE of the UrbanByNature methodology. This step is about selecting nature-based solutions that suit the local context based on identified challenges and opportunities. Participants will also learn about setting basic and, if possible, also specific indicators that relate to their city's specific and resources.

Representing CLEVER Cities, **Grace Yépez** from YES Innovation will present how priorities for the NBS plan in Quito's San Enrique de Velasco neighbourhood have been set with the local community, and how the process has benefitted from CLEVER knowledge and experiences. Adding local governments' perspectives, **Gabriel Dias Mangolini Neves** from Campinas, Brazil and **Gabriela Sánchez Sibaja** from San José, Costa Rica will share how they selected their approach and indicators to keep track of their efforts' impacts while engaging with citizens at the same time. During the webinar, participants will have the opportunity to share their experiences and address questions to the webinar speakers.

## RUN OF SHOW

### Facilitation

**Bráulio Diaz**, Institutional Relations Manager, ICLEI South America

### Intervention #1: Co-designing the implementation of nature-based solutions with the community in peri-urban neighbourhoods: experience in Quito
