

URBAN NATURE PLANS +

Short brief: step 7 for
urban nature plans

Urban Nature Plans – step 7

Nature belongs in our cities and urban nature plans are a key! This short brief provides an introduction to step 7 for urban nature plans.

Exploring the process - Step 7: Priorities, actions, responsibilities, timelines and financing

This step translates the vision into concrete actions. Clear priorities and timetables, together with assigned responsibilities, ensure that everyone knows what to do and when. It's also important to identify financial resources, from local budgets to national and EU funding, to support implementation. It also fulfils Milestone 4: Action Plan, which outlines the detailed approach to achieving the city's urban nature goals.

Key actions:

- ✓ Define and prioritise actions to achieve urban nature goals.
- ✓ Assign roles and responsibilities to individuals or organisations.
- ✓ Identify funding sources and ensure sustainability.

Guidance	Financing Nature-based Solutions in Cities This factsheet explores how implementing nature-based solutions (NBS) in cities can be a more financially viable alternative to conventional approaches. By outlining inspiring NBS case studies, this factsheet lists possible options for municipalities to fund NBS in order to address societal challenges and to contribute to human well-being. Thus, it aims to provide municipalities with concrete pathways and advice from success-stories to systematically ensure financial viability when implementing NBS in cities.
Tool	Financing and Business Models Guidebook Designing and implementing nature-based solutions (NBS) on a scale that delivers economic, environmental and social co-benefits, while also building resilience and benefiting biodiversity is complex with many different issues to consider. This guidebook is a tool to help cities and organisations navigate the path towards implementation of NBS on a large scale.
